How to Make It

Prep Work: Trace the horse head template onto construction paper and cut out two heads for each crafter.

NOTE: To make it easier for crafters to use the tacky glue, try pouring small amounts into collage bowls (or paper bowls). Then provide crafters with paintbrushes for spreading the glue onto their craft.

- 1 Provide each crafter with two horse head templates and a wooden dowel.
- 2 Assist each crafter with taping the wooden dowel along the bottom edge of one template. Then help them spread glue onto the template with a paintbrush for an even application.
- 3 Direct each crafter to align the second template over the first one to create a "sandwich" with the wooden dowel in the middle. If desired, crafters can even create a unicorn by adding a puffy pipe stem horn between the two templates.
- 4 Invite crafters to bring the pony to life with wiggly eyes, crinkle strip hair and other materials.
- 5 Once the materials dry, this one-of-a-kind pony is ready for show!
