

INFANT CHANGER & STORAGE CENTER

Your new changing center helps you make the most of limited space! The convenient center has a wipe-clean changing pad on top, with plenty of storage space below...plus added safety features such as high side panels and kid-safe latches.

Assembling the Handles

When you receive your changer, the door handles will be attached on the inside of the doors. All you have to do is unscrew the handles, move them to the outside of the unit, then screw them back in!

(continued on back)

WARNING:

ADULT ASSEMBLY REQUIRED—This product contains hardware that, before assembly, can pose a choking hazard to children under the age of 3 years. Care should be taken when unpackaging and assembling this product.

Using the Paper Roll

Your changing center comes with a roll of hygienic changing paper. Place it in the well at the top of the center. Slide the end of the paper under the plastic cutting strip, then over the changing pad. When you're ready to change the paper, tear the used paper off at the plastic strip, then pull the new paper over the pad.

Safety Latches

The doors have a child-proof latch. Simply reach inside and pull on the latch to release it and open the doors.

Safety Information

- Never leave a child unattended on the changing table. There is a risk of serious injury from falling. Always use the safety strap to keep the child secure, and keep one hand on the child at all times.
- The table is intended for infants and toddlers only. Do not use with children over 3½ years old or weighing 50 pounds or more.

Cleaning Your Unit

The surface under the changing pad is melamine. Both this surface and the changing pad can easily be wiped clean.
