

# Insects & Spiders

## Science Tub

**Designed to meet these objectives:**

### **Science**

- Students will observe, describe and compare the appearance of animals.
- Students will compare and sort objects by their physical attributes.
- Students will construct explanations and communicate observations with words or pictures.

*(continued on back)*

### **WARNING:**

**CHOKING HAZARD**—Small parts.  
Not for children under 3 yrs.

This easy-to-use science kit has everything you need to help children explore the fascinating world of insects and spiders! Four different activity cards are included, each with simple instructions for an engaging activity your students are sure to enjoy. The tub contains all the materials you need for each activity. There's even a stand to hold the activity cards so that students can see them easily!

## **Before You Begin**

You will need to apply a self-adhesive label ("Insects" or "Spiders") to the inner lip of the two bowls before students try the activities.

## **Using the Kit**

Choose an activity card and set it in the stand. Place the necessary materials nearby. (They are listed on each card.) Review the instructions on the card, asking volunteers to help you demonstrate as needed. Then, encourage children to explore and learn!
