left side

right side

rails (6)

wire paper tray

Hardware & Tools

bolts (12)

screws (12)

Allen wrench

caster wrench

free-rolling
casters (2)

locking
casters (2)

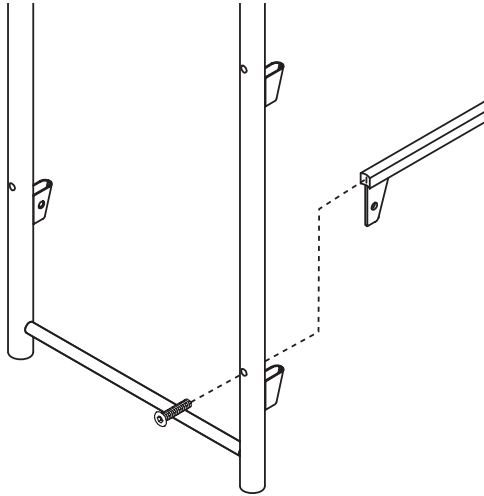

WARNING:

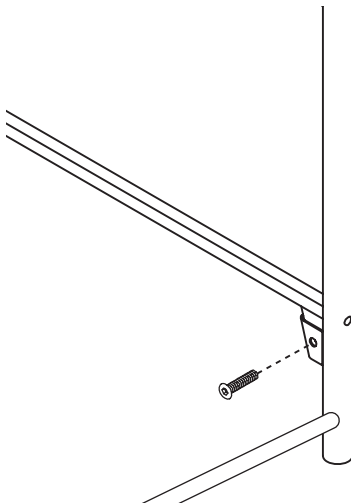

ADULT ASSEMBLY REQUIRED—This product contains hardware that, before assembly, can pose a choking hazard to children under the age of 3 years. Care should be taken when unpackaging and assembling this product.

Assembly Instructions

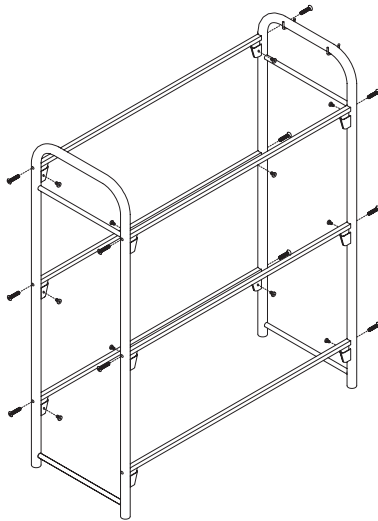

- 1 Start at the bottom level and insert a rail into the right side bracket. Use a bolt to attach the rail to the side. Next, use a bolt to attach the rail to the left side. Repeat the step for the other rail at the bottom level. Do not tighten screws and bolts completely until all the rails are attached.

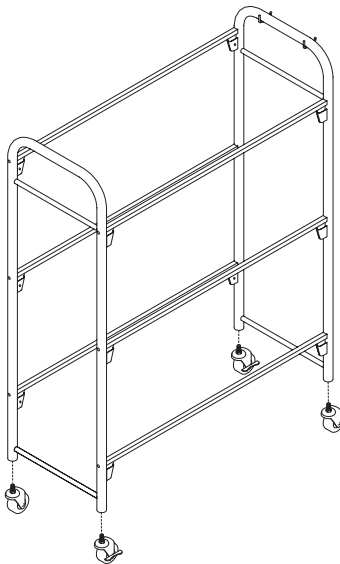

- 2 Use the screws to attach the rail ends to the brackets.

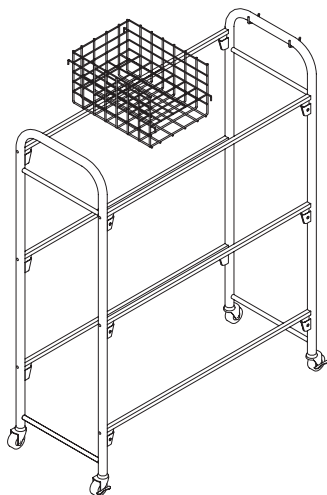

- 3 Repeat steps 1-2 for remaining rails.

- 4 Gently lay the cart on its side. Use the caster wrench to attach the locking and free-rolling casters to the unit. To ensure stability, place the locking casters on diagonal corners of the cart.

- 5 Stand the cart upright and place the paper tray on the unit so that its hooks rest on the top rails.

- 6 That's it! Your Leveled Library Mobile Storage Cart is complete and ready to use. Roll it into place and push down on the tabs to lock the casters.
