

#1 Creativity CHALLENGE

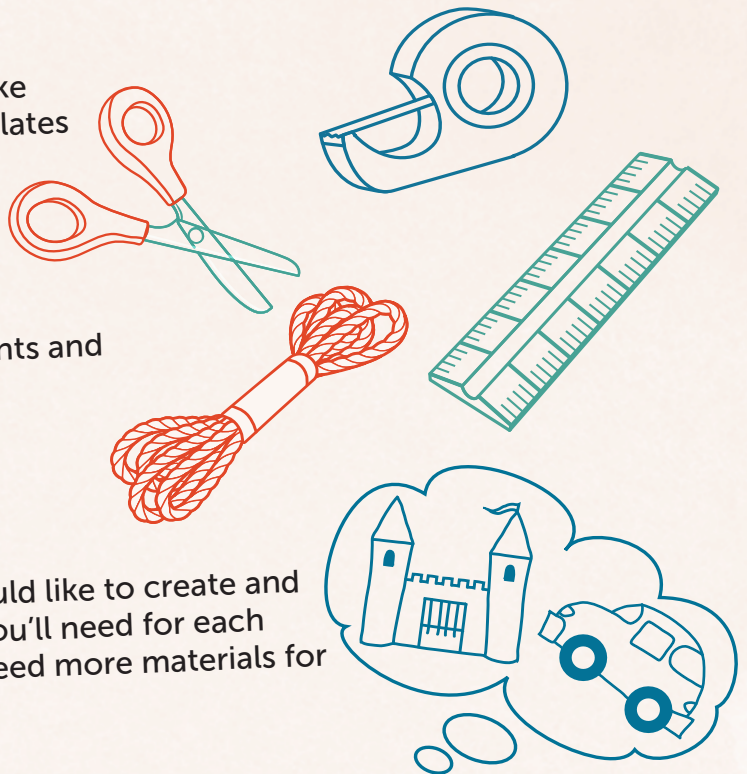

Lakeshore®
Summer
LEARNING
CHALLENGE
SWEEPSTAKES

The Challenge

Use recycled materials to create a car or castle with moving parts—like spinning wheels or a working drawbridge!

Materials

- Recycled materials in a range of sizes, like shoe boxes, shipping boxes and paper plates
- Scissors
- Glue
- Tape
- Rulers
- String
- Arts & crafts materials, like crayons, paints and construction paper
- Collage materials, like wiggly eyes and pipe stems

How-to

Imagine: Picture the car or castle you would like to create and draw out a sketch. Gather the materials you'll need for each piece. Ask Mom and Dad for help if you need more materials for your creation.

Build: Bring your car or castle to life!

Play: Share your creation with your family! Show them how the moving parts work and explain how you designed the pieces to move.

TIP! Don't forget about all the fun ways you can transform old cardboard materials into something new. You can cut it into shapes, paint it with bright colors and more!

Share: Snap a photo of your car or castle and upload it at www.lakeshorelearning.com/summerchallenge for a chance to win a \$500 Lakeshore e-gift card!
