

Suggested Materials for School-Age Care Environment Rating Scale

Lakeshore[®]

LEARNING MATERIALS

Evaluating your school-age program is an essential step toward ensuring that children experience the best possible care while they are with you. The criteria that are detailed in the *School-Age Care Environment Rating Scale* (by Thelma Harms, Ellen Vineberg Jacobs, and Donna Romano White) provide an easy-to-use, systematic method for determining where your facility already excels...and where it could be made even better!

Your assessment might inspire some exciting ideas for simple changes you can make, such as rearranging furniture, establishing new routines, or adding new equipment. Whether you're improving an existing program, developing a new program, or preparing for accreditation, Lakeshore Learning Materials offers top-quality, caregiver-tested furniture, equipment, and educational supplies that are designed to meet all of your center's needs. To help you make the best purchasing decisions, we've organized a list of specially selected products that correspond to the rating categories in the *School-Age Care Environment Rating Scale*. The page numbers listed after the items provide a quick reference to our Early Childhood catalog (abbreviated "EC") and our Elementary catalog (abbreviated "EL"), where you will find pictures and extensive details about each item on the list.

After you've made your selections, simply complete the order form and return it to us. If you have any questions about your order or our products, don't hesitate to call our toll-free number for Customer Service: (800) 428-4414. Or, visit our website at www.lakeshorelearning.com, where online ordering is fast, safe, and secure!
