

# Counting Challenge

## Number Sequencing

### Instructions:

Cut out a "Counting Challenge" label and glue or tape it to the outside of an empty box, such as a tissue box. Have your child cut out the challenge cards and place them in the box. Invite your child to pull a challenge card out of the box and follow the instructions. Allow your child to use the 1–120 number chart for help as needed. Your child can complete as many challenges as you want per day until all 20 cards have been pulled.

### Helpful Hint:

When using the 1–120 number chart, provide two markers (such as beans or bits of paper) for your child to use to cover the first and last number specified on the challenge card.

Start at **55**  
and count to **90**.

Start at any **odd**  
number and count  
to **120**.

Start at **50** and  
count to **100**.

Start at **40** and  
count by twos to **80**.

Start at **1** and  
count to **120**.

Start at **18** and  
count **10** more.

Start at **25** and  
count to **45**.

Start at **10** and  
count by tens to **50**.

Start at **2** and  
count by twos to **20**.

Start at **2** and  
count by twos to **120**.

Start at any  
**even** number and  
count to **120**.

Start at **31** and  
count **20** more.

Start at **73** and  
count **30** more.

Start at **60** and  
count **60** more.

Start at **90** and  
count by fives to **120**.

Start at **65** and  
count by fives to **115**.

Start at **5** and  
count by fives to **120**.

Start at **15** and  
count to **60**.

Start at **77** and  
count to **117**.

Start at **34** and  
count to **74**.
