

Triorama Directions

1. Place your sheet of construction paper flat on your desk so that the shorter ends make up the top and bottom of the paper.

2. Fold the bottom right-hand corner up so that the bottom edge of the paper is now even with the left edge of the paper. Cut off the extra rectangular piece at the top so that you have a folded triangle.

3. Now fold that triangle in half.

4. Unfold the piece of paper so that it is a square. Then cut along one of the folds to the center point of the square.

5. Overlap Part A and Part B and secure them together with glue.

6. The finished product is a triorama! This will be the background and stage for the scene that you are creating!
